

LOKVANJ

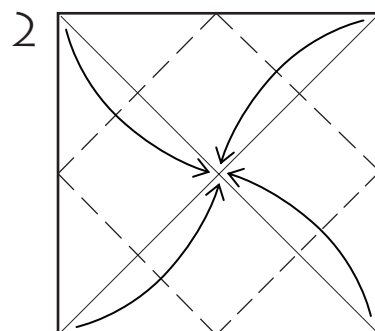

MODEL: TRADICIONALNI, JAPAN

DIJAGRAM: METJU GARDINER

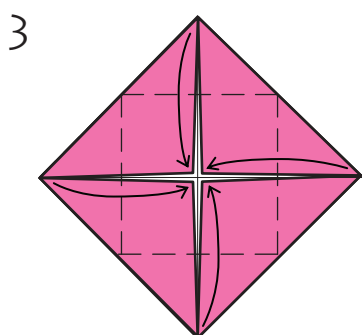

Lokvanj je prelep oblik koji nam u glavi stvara sliku tog ljupkog cveta kako pluta po površini vode.

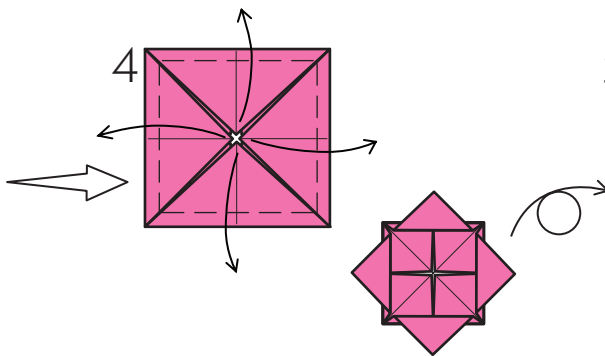

Savijte papir po dijagonalama i razvijte ga.

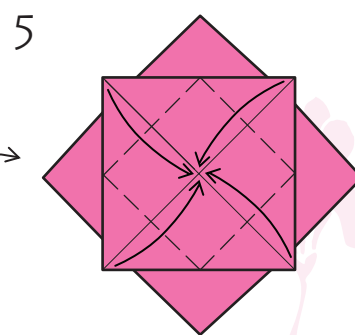

Savijte uglove ka sredini.

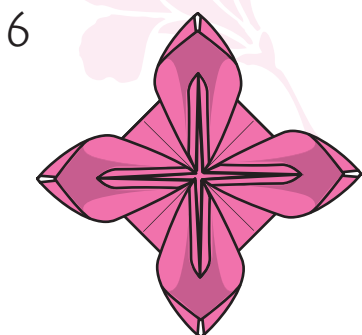

Opet savijte uglove ka sredini.

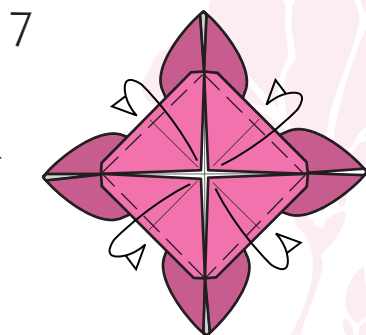

Naznačene uglove savijte ka spolja ostavljajući mali procep na ivicama. Okrenite.

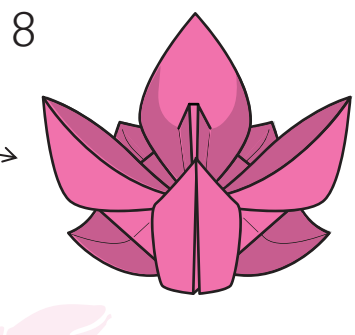

Dok budete savijali naznačene uglove ka sredini, model će postati trodimenzionalan.

Gotov korak br. 5. Okrenite papir.

Naznačene uglove savijte ka spolja ostavljajući mali procep na ivicama. Okrenite.

Gotov lokvanj.

PERUNIKA

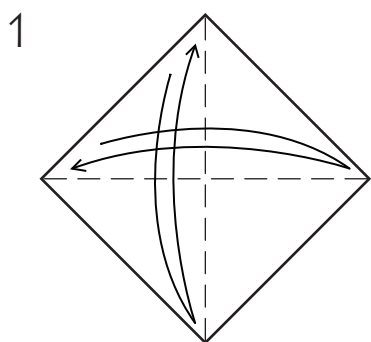

MODEL: TRADICIONALNI, JAPAN

DIJAGRAM: METJU GARDINER

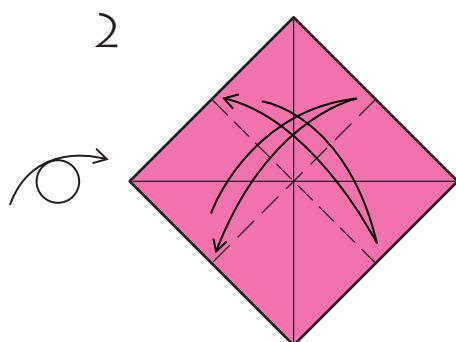

Perunika (iris) dobila je ime po grčkoj reči za dugu, a ono odražava širok raspon boja ovog cveta. Origami perunika najlepša je ako se napravi od spojenog ili dvobojnog papira.

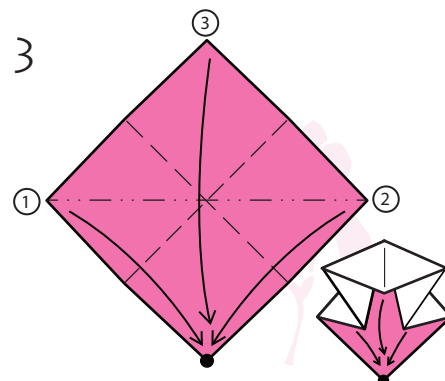

Perunika je popularan simbol. Nalazi se na zastavi Brisela, a takode je i amblem Firenze.

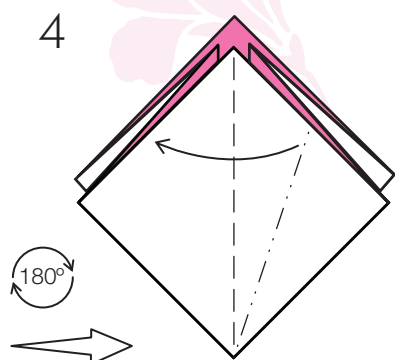

Savijte papir po dijagonalama i razvijte ga. Okrenite papir.

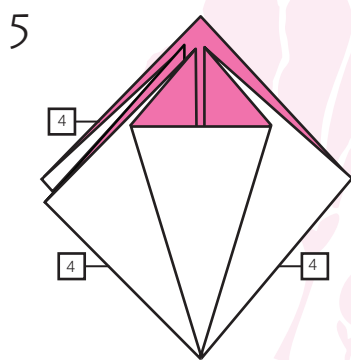

Napravite oblik knjige i razvijte ga.

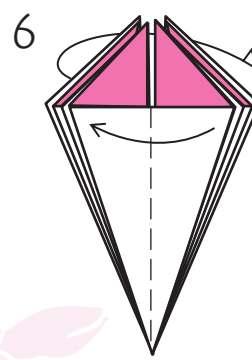

Privucite tri gornja ugla i sastavite ih kod donjeg. Počnite s uglovima 1 i 2, a zatim im pridodate ugao 3.

Napravite predlinije savijanja, a zatim spljoštene prevoj.

Ponovite korak br. 4 na preostale tri strane.

Okrenite samo gornji i donji sloj u stranu.
